Welcome to London Hairdressers .co.uk!

Here you'll find discussion and reviews of London Hairdressers and Hair Salons across the Capital and indeed the Country.

We've all been there - it's a big decision trusting your hair to an unknown salon and stylist. This site will hopefully spotlight the best salons across the Central and Greater London. You can hear from other customers what their experience has been and even read our professional reviews.

We hope not just to highlight the swanky but also the great value professional smaller independent salons who deserve your support.

You will also be able to discuss your hair styling needs and we hope to have stylists from top London salons answering your questions.
